HOFFMAN ESTATES PARK DISTRICT heparks making life fun

June 12, 2017

To the Board of Commissioners
The Residents of Hoffman Estates

Presented for your review is the Hoffman Estates Park District (hereinafter "District") Comprehensive Annual Financial Report (CAFR) for the fiscal year ended December 31, 2016. Illinois state statute requires that municipal governmental entities publish a complete set of financial statements within six months of the close of the fiscal year. The financial statements must be presented in conformity with Generally Accepted Accounting Principles (GAAP) and audited by independent certified public accountants (CPA). The following financial statements meet this requirement and have been audited by the CPA firm of Sikich, LLP.

Management assumes full responsibility for the completeness and accuracy of the attached reports which represent the overall financial operations and performance of the District. The complete financial framework for which these are presented is established with the utilization of internal controls to accurately prepare and report the financial operations for the District. Our internal control system is designed to ensure the proper safeguarding of the District's assets within a cost benefit level to ensure that costs for our controls do not exceed the benefit they produce.

Sikich, LLP has given the audited financial statements an unmodified opinion, meaning that the financial statements represent fairly within all material aspects the financial position of the District for the fiscal year ended December 31, 2016. This opinion provides insurance to the user the fairness and accuracy of the financial statements. To also help the user better understand the financial statements and be able to compare them to prior years, the management discussion and analysis (MDA) is prepared by staff and presented immediately following the auditor's report. The MDA provides an additional overview, insight, and analysis to make the financial statements easier to understand. The financial statements along with this transmittal letter should be read in conjunction with the MDA.

Profile of the District

The Hoffman Estates Park District was created by a voter approved referendum in 1964 and celebrated its 50th anniversary in 2013. The referendum established the District for the sole purpose of providing park and recreation services for the community residents. The District is governed by a seven member board of commissioners that is publicly elected by the District's residents on staggered four year terms. The Board of Commissioners then elects the officers for President, Vice President, and Treasurer among themselves. The District operates to fulfill its mission of providing first class parks, programs, facilities, and services for our residents and guests in an environmentally and fiscally responsible manner.

Primarily contiguous with the Village of Hoffman Estates, a home rule municipality incorporated in 1959, the District incorporates three main areas due to the division by major highways. These areas are the north, south and west areas of Hoffman Estates located within Cook County. The District serves a population of 51,895 and currently has 80 parks totaling over 900 acres. The District had 23,311 participants in our recreational programs in 2016; major programming areas include early childhood, youth and adult athletics, dance, gymnastics, karate and many other programs based heavily upon our operational pillars of fitness, environmental stewardship, and social equity. In addition to the parks and programs, the District has the following major facilities:

Triphahn Center (TC) the home of the District's administrative offices and is the central recreation point for District activities. Located on the south side of Hoffman Estates, it houses a full size gymnasium, fitness center and locker rooms which had 863 members at the end of 2016. Preschool and early learning center activity rooms, a dance room, multi-purpose areas and the District's "50+ Club" which currently has 673 members. This is also the practice facility for the Chicago Wolves and as a result of this partnership the current facility was expanded and two professional size ice rinks were added. This facility recorded an annual attendance of 916,718 patrons.

Bridges of Poplar Creek Country Club (BPC) is a 150 acre 18 hole par 70 golf course. The clubhouse also serves as a full restaurant and meeting facility, including banquet accommodations for 250+ guests. A recent award winning renovation to the course not only remodeled and revamped the exciting layout of the golf course but also added a beautiful outside gazebo and event area which is a perfect wedding spot for our award winning wedding operation (winner of the "Best of the Knot" for the last five years). In 2016 there were 31,279 rounds of golf played here.

Seascape Family Aquatic Center is located adjacent to the Bridges of Poplar Creek and it includes a large outdoor zero-depth pool with body and raft water slides, a bathhouse with locker rooms, an event area, volleyball courts, and a concession stand. Seascape is open from late May to mid-August. Annual passes for individuals or families are sold here as well as a daily visit option. Seascape is also used extensively in many of our summer camps. Seascape sold 1,459 season passes in 2016 and had 33,601 total visits.

Prairie Stone Sports & Wellness Center (PSSWC), located on the west side of Hoffman Estates is a 100,000 square foot sports and health facility. It includes three gymnasiums, three tennis courts, an indoor zero depth pool and lap pool, public and member locker rooms, a running track, and aerobic and group fitness rooms. Spa services, massages and child care are also available. Monthly membership dues generate the majority of revenue for the facility which had 2,940 members at the end of 2016. This facility saw 757,983 visits in 2016. An alternative revenue source and partnership has been established here with Athletico a major provider of physical therapy for medical reasons. Athletico has a full service center located within PSSWC where they lease approximately 200 square feet of space.

Willow Recreation Center is a smaller recreational facility than Triphahn Center located on the north side of Hoffman Estates. It houses a gymnasium as well as a small fitness center and locker rooms which had 349 members at the end of 2016, racquetball courts, and preschool and programming rooms. It is also the location of our outdoor skate park and one of two dog parks, Bo's

Run, that the District has (the other dog park, Freedom Run, is located on the west side of Hoffman Estates). The District had 694 annual dog park members at the end of 2016. The Palatine Public Library leases approximately 1,200 sq. ft. within this facility to provide a branch library to our mutual residents. This facility recorded an annual attendance of 191,942 patrons.

Vogelei Park, House & Barn is a 10 acre park located at the southeastern entry point to Hoffman Estates. Located here is an historic house and barn both of which are used for rentals. The barn and large park area is also a great spot for many of our summer camps and special events. This historic site housed the District's first administrative offices after it was purchased in 1969. The park area was completely revamped and the historic house refurbished as part of a major renovation in 2010. This site is now used for a variety of summer camps and various rentals.

The annual budget is the funding mechanism to meet our mission by providing and maintaining our parks, programs and facilities. The annual budget is an on-going process by which all management staff continually looks for new and innovative ways of providing services to accompany our core services and facility offerings already in place. The budget starts with each department developing objectives for the upcoming year. These objectives are specific planned actions based on the mission, vision and goals of the District as outlined in our five-year Comprehensive Master Plan (CMP). These objectives provide specific measurable actions to be implemented in the budget year. The budget will be the mechanism to fund all of our objectives in addition to all other services and offerings.

It is the responsibility of each department: *Parks* for Maintenance, *Planning & Development* for park development and accessibility, *Recreation* for programming and *Facilities* for facility usage and memberships (in addition to the specific PSSWC and BPC operations which are budgeted separately) to outline a balanced working budget for their respective areas. Each year's budget is zero based and all items are carefully reviewed. Working closely with the business department an overall budget is developed. The operational budgets also include inter-fund charges for shared costs like athletic field maintenance, office support, insurance, etc., as well as funding for the Illinois Municipal Retirement Fund (IMRF, our employee pension system), social security expenses, in addition to certain debt service payments.

The working budget is reviewed by the Deputy Director/Director of Finance whom works with all departments developing an overall District balanced budget utilizing all of the program areas as well as the District's annual tax levy, which is developed to coincide with the budget process. This budget then goes through a rigorous review by the Board of Commissioners and our District's community committees, which include an Administrative and Finance Committee, a Recreation Committee, and a Building and Grounds Committee.

Each separate committee is comprised of a different set of five residents along with two Board members. Each committee then reviews each respective area and each department. Only after all board committees of the District have reached a consensus, is the final document then displayed for public input for 30 days. During that time an additional public meeting is held. Then the working budget is formally approved by the District's Board of Commissioners. This final document is the District's Budget & Appropriation (B&A) Ordinance which puts legal spending limits on each operating fund of the District.

Our District approves the budget every December prior to the start of the fiscal year, even though legally we could wait until 90 days after the budgeted year has started. We prefer to have the B&A Ordinance approved along with our annual tax levy which is required to be approved in December. This allows the District to start each fiscal year with a formally approved budget document.

Budgetary control during the year is maintained through continual review of financial performances and a well-controlled purchasing system requiring approved purchase orders for any expenditures. Monthly financial statements and listings of all expenditures are approved every month by both the Administration & Finance Committee and then by the Board of Commissioners. The budget numbers are an integral part of the financial statements which are eventually audited and comprise part of our Comprehensive Annual Financial Report (CAFR).

Local Economy

The local economy, as well as the state and national economies all are still recovering from the 2008 recession. The most dramatic aspect of this downturn has been the continued decline of real property values, which has finally started to level off this past year. This can be seen by viewing the District's "Assessed and Actual Value of Taxable Property" chart in the statistical section which shows the past ten years of equalized assessed value (EAV) of the District. The district's EAV since 2009 dropped losing more than a third in value (2009-$1,907,073,711 and 2015-$1,221,136,659). The 2016 EAV has now started to increase and we realized greater than 10% increase to a 2015 EAV $1,408,437,259. The EAV and tax levy years are always one year behind the fiscal year they fund. The 2016 EAV will be used for the 2016 tax levy which will fund the 2017 financial operations.

In 2016 a new subdivision called Bergmann Pointe was annexed by our District. This property is proposing 81 new single family homes, by 2016 over one half of the homes (phase one) were complete and occupancy has started. In 2016, single family home construction was set to begin at Airdrie Estates, located in the Western section of the Village with 18 available custom home lots; construction is now anticipated to begin in 2017. Even more exciting is the continuation of new business proposals that will coincide due to the new highway

The interchange located at Barrington and Higgins road which will be a major ingress/egress interchange for most of our District facilities was due to be completed in 2016, but the project has been extended into 2017. This interchange when complete will include both east and west bound ramps as well as a PACE public transportation facility. In 2016 new businesses included; Adesa Auto Auction, Main Event indoor entertainment center, Duluth Trading Company, Culver's/Mobil Gas Station, as well as many business remodels. In 2017 new business projects include; TRUMPF Technology, Burlington Department store, Country Inn & Suites, Ace Hardware, Dunkin Donuts/Baskin Robbins, as well as many business remodels.

Despite the lower EAV, which is the factor with the most direct correlation to our operations, we have seen unemployment rates in Hoffman Estates go from 3.5% in 2007 to a high of 8.8% in 2009 and more recently 7.1% in 2013. The unemployment rate in 2016 for Hoffman Estates rose to 7.4% compared to 5.5% for Illinois overall. Hoffman Estates also continues to see a greater household income than our state or county with a median income increasing to just over $83,000 (up from $78,000 in 2014). This compares to just over $53,900 for the rest of Cook County, Illinois.

Overall the local economy appears to be improving with strong home sales and new developments for both residential and businesses. We continue to hope for more new growth in all of these areas which will continue to nudge other Hoffman Estates economic factors positively.

Long Term Financial Planning

Long range financial planning is an integral component to the successful operations of our District. A major component of our planning is our Comprehensive Master Plan. This is a very detailed document that not only analyzes our District's operations but benchmarks us against other similar districts and researches best practices for the different areas of our District. The CMP which is updated every five years also includes a comprehensive community wide survey that allows our residents to anonymously rate all aspects of our District as well as our Capital Asset Management Plan (CAMP). The most recent CMP was finalized in 2014. The CMP and the associated CAMP are reviewed every year and are an integral part of the budget.

Our District continues to measure at the highest levels in user responses with our parks and the majority of all of our facilities rated at least 90% or higher as excellent or good. Our staff and programs both came in with 94% of our residents stating that they were somewhat or very satisfied with both. The overall CMP not only measures all of these factors but also includes information related to our long range planning. This includes our CAMP. The CAMP tracks and predicts all capital expenditures over $10,000 that is not only anticipated over the next five years but also maintains lists of any and all projects that we anticipate or are considering for the future.

To continue our dedication to maintaining first class parks and facilities, the District invested in Graphical Information System (GIS) software. This new software was implemented in 2016 and tracks all of the District assets and their useful lives. In the future this will allow all of our residents to quickly view all park and facility amenities, such as where is a playground, tennis courts, splash bad, or even a park shelter, by simply going to our website. Additionally this tracks all repairs and replacements for all of our assets and will simplify our CAMP process each year in evaluating our required replacements for any large asset of the District.

The day to day park district operations are supported by user fees, tax dollars and alternative revenues. The tax dollars are capped each year based on the taxes collected from our annual current levy plus an increase for CPI. This increase was .7 for 2016; however there will be an increase to 2.7% for 2017. The very limited increase ensures that we most always operate as efficiently as possible and be conservative in our financial operations. With these tax funds, the District maintains and supports all of our park operations as well as ADA and other specific program areas for seniors and at-risk youth. The majority of our other operations are supported and paid for by user fees. This includes our operations at BPC, PSSWC and the majority of programming, whether early childhood, athletics or ice.

The District is also closing monitoring Illinois state legislation that is calling for a property tax freeze. If this were to become law the District would not even receive these minor increases we have for the duration of any freeze. Additionally legislation continues to be proposed for minimum wage increase. In 2016 Cook County passed such legislation (however in 2017 the Village of Hoffman Estates formally opted out of this requirement).

Alternative revenues are a major component of our financial planning and these include revenues from various partnerships like the Chicago Wolves that provide over $200,000 in rent every year as part of our agreement. We also have partnerships with cellular carriers for cell sites on our properties that generate over $75,000 per year. Other partnerships are not necessarily dollar based but they do provide for additional programming space like our agreements with the local school districts for additional gym and classroom space which are especially in demand during the summer camp season. We have a very large before and after school program that generates a large portion of our Early Childhood revenues. These programs are held at local school through an intergovernmental agreement with those school districts.

We also have an agreement with the Northern Illinois Raptors that house their birds of prey at our Vogelei Park and in turn provide environmental education for our residents with classes and special events. Other rental and partnership agreements include rental of space with organizations such as Athletico, Sky High Volleyball and even the Chicago Bulls.

In 2014 the District erected four large digital marquee signs. These signs promote our programs and in a partnership with the Village of Hoffman Estates they provide community awareness messages such as AMBER alerts. Two of the signs are also allowed to generate additional revenue through the sale of advertising. While in 2015 we generated over $75,000 in revenue, 2016 increased to over $158,000.

One of the largest sources of alternative revenue for us is grants. Over the last 30 years the District has received almost $6 million in grants. Many of the larger grants were Illinois Department of Revenue open space and land acquisition (OSLAD) grants. These grants enabled us to develop our parks and facilities to the level and total acreage we have today. Many other recent smaller grants have come from the Illinois State Parks Energy Efficient Program and State Comptroller's office that has allowed our District to become more environmentally responsible within our parks and facilities. While in 2015 we received almost $30,000 in such grants, 2016 only realized just over $7,000 in grants. The bond rebates from the Federal government for our Build America Bond issue generated just over $152,000 in revenue.

The annual budget governs our financial operations each year. Our long range plans allow for the appropriate planning to ensure funding for current and future years of operations. Our District has an established fund balance reserve policy (implemented in 2012) that provides for the careful allocation of District reserves. These reserves help enable the District to overcome any potential cash flow shortfalls should they arise. The reserves are also a mechanism that can be used to help fund future CIRP items.

The District recently finished the third stage of an agency debt reallocation plan that has effectively spread our debt over applicable future years that allow our residents to enjoy the parks and facilities that created the original debt. The final component of this plan was to refund the District's 2004 debt certificates, which were reissued in the form of a 2014 bond in December. The final component of our debt restructuring plan will be refunding our 2006 General obligation bonds in 2017. Once this is completed our future availability of annual bonds will match the requirements of our CAMP for the foreseeable future.

Throughout all of our careful utilization of our bonding authority to maintain the debt repayment plan, the District has continued to maintain a Standard & Poor's bond rating of AA+. (This bond rating was reconfirmed early in 2017). This high rating reflects the careful planning and financial integrity that the District practices every year and was reaffirmed with our most recent bond issue.

Major Initiatives

The District's CMP is a very detailed process to complete this statistical document. Starting in 2013 the District engaged the services of the Public Research Group, LLC to help us in preparation of this new five year document. A major component of this document is the community wide attitude and interest survey. This was completed in 2013 and measured a variety of data from our residents. The survey focused on measuring the satisfaction that residents have with the District's parks, facilities, programs and services. It asked for information on the importance of different types of programming and prompted residents to provide ideas for new services we could provide. The entire CMP included studying demographics, benchmarking, best practices, strengths, weaknesses, opportunities and threats (SWOT) assessments, and a complete revision of the District's CAMP. The District also completely reevaluated its mission, vision, and goals. This plan is reviewed every year as part of the budget process.

As part of our CAMP, playgrounds are continually planned for renovation and replacement. This is a major focus on the District's mission and we take great pride in each and every playground through careful planning and construction. In 2016, three playgrounds were renovated. Every time a playground is renovated community meetings are held to gather public input on the functionality, usage, and design. Additionally any time a capital project has impact on the usage of our land or facilities we hold public input meetings. Below are some of the major initiative projects for 2016 which included renovation of the Prairie Stone Sports & Wellness Center Activity and Lap Pools:

Prairie Stone Sports & Wellness Center Pool

Activity Pool

Lap Pool

Park Improvements

Canterbury Park Place

Sheffield Park

Victoria Park

Awards and Acknowledgements

The District received its third Government Finance Officers Association of the United States and Canada (GFOA) award of Certificate of Achievement for Excellence in Financial Reporting in 2016 for our 2015 Comprehensive Annual Financial Report (CAFR). This prestigious award is to recognize a government for publishing an easily readable and efficiently organized CAFR that satisfies both GAAP and applicable legal requirements. We believe that our CAFR for 2016 also meets these requirements, and we are submitting it to the GFOA to determine its eligibility for this certificate.

The District was a National Recreation and Park Association (NRPA) Gold Medal finalist in 1989, 1990, 1991, 2007, 2008, and 2009 when it was named the Gold Medal winner for Class IV (population 50,001-100,000). This award recognizes the best overall park and recreation agency in the nation based on the criteria established by the NRPA.

The District received the Illinois Association of Park Districts (IAPD)/Illinois Park & Recreation Association (IPRA) Joint Distinguished Agency Accreditation. This prestigious accreditation was awarded to the District in 1999, 2005, and 2011. We apply for reaccreditation every six years and are planning our 2017 reaccreditation process now. The District has always received an excellent rating on its score. In 2013, the District also received the IAPD License plate award for promoting youth activities and the license plate program sponsored by IAPD.

Also received from IPRA in 2014 and 2015 was the Exceptional Workplace Award presented by the Health & Wellness Committee of IPRA. This award signifies a healthy and satisfying work environment based on peer and staff review.

In 2013 the District joined the ranks of the elite park and recreation agencies and departments across the nation by earning accreditation through the Commission for Accreditation of Park and Recreation Agencies (CAPRA) and the NRPA. The District achieved a perfect 144 out of 144 score and at the time of completion became the first Illinois Park District to have won the NRPA Gold Medal, CAPRA/NRPA accreditation and also IAPD/IPRA accreditation. The reaccreditation for this is every five years and we will resubmit in 2018.

In 2013 the District received the Illinois Sunshine Award from the Illinois Policy Institute, a nonpartisan and nonprofit research organization that recognizes governments for their transparency. Numerous criteria are measured to ensure complete transparency of the governments operations to the public. Our District scored a 94% which is the highest score ever received by an Illinois Park District. To see some of the information rated by this award, feel free to visit our website heparks.org and click on the transparency/FOIA (Freedom of Information Act) tab. There you will find a complete five year financial history and all related District documents. It also has a quick link to request District FOIA information. The District applies for this award every three years.

The District is also accredited by the Park District Risk Management Association, which the District is a member for purposes of pooling of insurance for liability, property, and casualty as well as for our employee health insurance. The District was accredited in 2005, 2009, and 2013 (reapplication is accepted every four years) and each time the District has received an exceptional rating and scored in the top one percent (1%) of all park district members in the pool. We are also planning for our 2017 accreditation which is a year-long process that began in 2016.

In 2014 and again in 2015 the District was named the Hoffman Estates Chamber of Commerce Public Sector of the Year as determined by the Hoffman Estates Chamber of Commerce in which the District is an active member. The District was also was awarded our annual accreditation from the National Association for the Education of Young Children (NAEYC) for both of our preschool locations (Triphahn Center and Willow Recreation Center). We also received the Four Star Aquatic Safety Award from Starfish Aquatics Institute in recognition of exceptional operational safety standards for lifeguard professionalism and excellence in risk management practices.

The District is fortunate to have a professional and dedicated Board of Commissioners to guide our District, and a terrific administrative and business staff that take pride in performing at the highest levels while maintaining uncompromising integrity and sound financial policies. We sincerely appreciate all of the contributions of the entire business department staff in making this document first class. Finally we wish to thank the staff of Sikich, LLP for the guidance and oversight of our audit process and the final presentation of our CAFR.

Respectfully submitted,

Dean R. Bostrom, CPRE
Executive Director

Craig Talsma, CPA
Deputy Director/
Director of Finance & Administration

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

Members of the Board of Commissioners
Hoffman Estates Park District
Hoffman Estates, Illinois

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Hoffman Estates Park District, Hoffman Estates, Illinois (the District), as of and for the year ended December 31, 2016 and the related notes to financial statements, which collectively comprise the District's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the Hoffman Estates Park District, Hoffman Estates, Illinois, as of December 31, 2016, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note 13 to the financial statements, in 2016, the District elected to report year-old defined benefit pension plan information as allowable under the provisions of accounting guidance, GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date—An Amendment of GASB Statement No. 68*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, combining and individual fund financial statements and schedules, supplemental data and statistical section listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section, supplemental data and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Naperville, Illinois

GENERAL PURPOSE EXTERNAL FINANCIAL STATEMENTS

Hoffman Estates Park District
Management's Discussion and Analysis
December 31, 2016

The management of the Hoffman Estates Park District (the "District") provides the readers of our financial statements the following overview and analysis of the District's financial operations and attached financial statements for the fiscal year ended December 31, 2016. The following discussion is presented to enable the readers to more fully understand the accompanying audited financial statements. The District is responsible for the fair and accurate presentation of all financial information, as well as the internal controls and reporting procedures in creating the financial statements. In management's opinion, the financial statements herewith reflect all material aspects of the District's operations in an accurate, fair and complete manner.

The financial statements are prepared in accordance with Generally Accepted Accounting Principles (GAAP), and follow the guidelines of the Governmental Accounting Standards Board (GASB). In 2011 the District implemented GASB Statement #54, Fund Balance Reporting and Governmental Fund Type Definitions, to provide a greater clarity for the usage of the District's reserves. A major component of this for our District was to ensure that sufficient balances of reserve funds were available to help fund any cash flow requirements the district might have due to delayed tax payments from Cook County. This policy allocates three to four months of our annual expenditure budget to be allocated as reserves assigned for the purpose of meeting cash flows. Additionally this policy allows for additional reserves to be allocated towards capital asset replacements if so directed by our Board during our fiscal budget process. The allocation of the different types of reserves is shown separately in the balance sheet of the financial statements.

The major components of the financial statements are the overall statement of net position and the overall statement of activities. The statement of net position shows the amount that total District assets exceed total liabilities and deferred inflows of resources, which may be considered the current value or net worth for the District. This value does not take into consideration the current fair market value of capital assets or land. Only the historical book value is represented. Therefore the net value represented is only based on the accounting of true book value. Much of the District is composed of land and physical buildings and items that would have a much larger market or replacement value.

The statement of activities reflects the overall operations of the District for the past year, excluding revenues from taxes, interest and miscellaneous items. This demonstrates how effectively the District operates on a business level model. It shows how the District might fair as a business, without the support of the aforementioned auxiliary revenues which are reported "below the line" and separate from the operations.

Reconciliations are provided in the financial statements to reconcile the difference between valuing the District based on net position, and the District's valuation based on fund balance. This reconciliation is provided on page seven of the financial statements. The main reconciliation differences are the capital assets and associated depreciation in the asset side and long-term debt and its associated components (accrued interest, unamortized bond premiums), plus unrealized but potential compensated absences for employees, and any net pension obligation on the liability side. These are all reported on the statement of net position.

Reconciliation is also provided on page eleven to reconcile the reporting differences between the governmental activities statement and the governmental funds statement of revenues, expenditures, and changes in fund balance. This now shows the reconciliation effect of capital assets (depreciation) and long-term debt (and associated costs) from a revenue and expense viewpoint instead of a net position viewpoint as in the previous reconciliation.

Overview of the Financial Statements

The financial statements have three major components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. Additional required supplementary information includes the schedule of revenues, expenditures and changes in fund balance, budget compared to actual for all of the District's major operating funds; the schedule of funding progress and employer contributions for the Illinois Municipal Retirement Fund (the District's state retirement pension); and notes to required supplementary information.

Also presented are the combining schedule of revenues, expenditures and changes in fund balance for major funds and the statements of revenues, expenditures and changes in fund balance - budget and actual for all of the District's Special Revenue Funds, in addition to other financial schedules. Additional supplemental data includes financial information on the District's Capital Projects Fund and long-term debt requirements.

Also included as part of our Comprehensive Annual Financial Report is a statistical section covering major components of our District's operations. These tables include financial trends, revenue capacity (property tax and levy information) debt capacity (information on the District's outstanding debt) demographic and economic information as well as operating information of the district statistical information regarding the District's property taxes and debt margin is also provided.

The two main components to the government-wide financial statements are: (1) the statement of net position (page 3), and (2) the statement of activities (page 4). As discussed before, these are the two major statements that are analyzed in terms of obtaining a broad overview of the finances, value and annual operations of the District.

Statement of Net Position

The statement of net position is a snapshot as of the end of the fiscal year illustrating the overall value of the District. As previously noted this includes capital assets at book value and not market value. The total net position should be a positive number, and can be equated to the District's total net worth. From year to year, an increase or decrease in the total net position of the District is one factor in determining the total overall financial performance. Please note, however that the net position of the District is after depreciating capital assets. This is not how governmental entities truly valuate their performance. Overall the total fund balance or available cash for operations and capital improvements is a more useful measure in regards to how the District will continue to operate.

The 2015 audited financial statements as summarized below include a prior period adjustment to properly reflect the IMRF pension obligations as reported as deferred outflows for the District. The actuarial information from IMRF is not available at print time therefore the District has selected to use the prior year's information to report this. The 2016 financial report reflects the pension plan costs and contributions for IMRF as of 12/31/2015. The 2015 financial report has been reflected to present the pension plan costs and contributions as of 12/31/2014 in order to properly present this change in accounting principle by the District.

(Please see the financial statement footnote #13 for full details on the District's Change in Accounting Principle).

The following chart compares the statement of net position from year-to-year for the District:

Statement of Net Position

	December 31, 2016	December 31, 2015
Assets		
Current Assets	$ 26,130,690	$ 25,229,084
Capital Assets	56,486,004	56,695,130
Total Assets	82,616,694	81,925,214
Deferred Outflows of Resources	1,986,969	2,172,697
Total Assets & Deferred Outflows	84,603,663	84,097,911
Liabilities		
Current Liabilities	2,235,249	1,977,134
Long-Term Liabilities	70,180,576	69,610,874
Total Liabilities	72,415,825	71,588,008
Deferred Inflows of Resources	8,630,000	8,475,000
Total Liabilities & Deferred Inflows	81,045,825	80,063,008
Net Position		
Net investment in Capital Assets	(12,571,252)	(11,506,289)
Restricted	7,603,149	6,996,233
Unrestricted	8,525,941	8,544,959
Total Net Position	$ 3,557,838	$ 4,034,903

The largest component of the assets is the capital assets, which are the infrastructure or fixed assets for the District. These include land, buildings, fixtures, and equipment. These items are depreciated over their useful lives, and each year depreciation expense for that year is recorded. The total district wide depreciation on our capital assets in 2016, equaled $2,571,266.

Please see the financial statement footnote #5 for full details on the District's capital assets.

The overall net decrease in capital assets after additions, deletions, and depreciation had a cumulative decrease of ($209,126) for 2016, compared to ($867,881) during 2015. The total depreciation expense for 2016 was $2,571,266 as compared to depreciation expense of $2,649,847 in 2015. This is a decrease to the total assets of the District.

The largest component of the total liabilities is the noncurrent liabilities that reflect the total amount due for principal payments on the District's outstanding debt. Debt, most often created by the issuance of bonds, provides the funding mechanism for capital assets that will have a value to future residents of the community. This bonding process is what allows the district to fund its Capital Asset Management Plan (CAMP) which is a part of our Comprehensive Master Plan (CMP) which is produced every five years. The CAMP is reviewed and updated every year as part of the annual budget process.

Please see the financial statement footnote #7 for full details on the District's long-term debt.

During 2016, the District's total long-term debt decreased by $569,702 to a total of $70,180,576 from the total long-term liabilities which began the year at $69,924,432. The long-term balance includes potential compensated absences (unpaid vacation or sick time) as well as any net pension obligation (the amount unfunded due to the discounted amortized payment made to IMRF over the actual full liability). The increase in the long term debt is mainly attributable to an increase in the net pension obligation for 2015, reported one year in arrears as previously explained in the change of accounting principle. In addition to the long-term portion, the current portion of the district's liabilities increased by $257,115 to $2,235,249 for total District liabilities of $72,415,825 in 2016, compared to $72,392,770 in 2015. Additional discussion on the District's long-term liabilities is presented later.

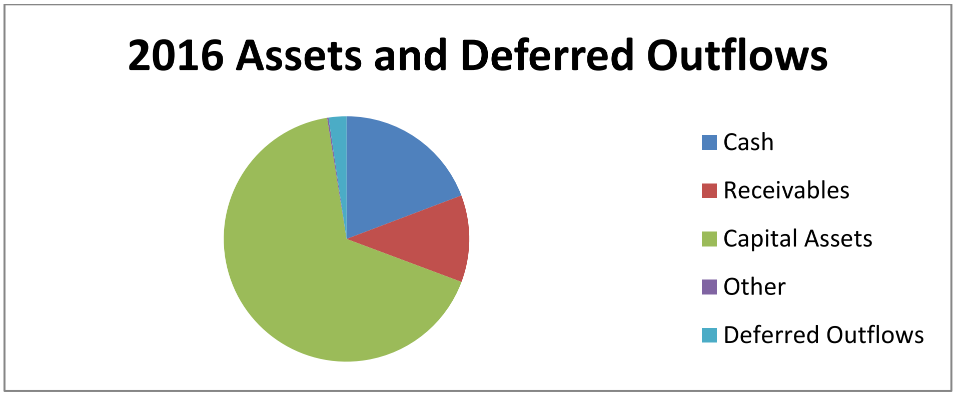
Assets and Deferred Outflow of Resources

The District's total assets and deferred outflows of resources exceeded total liabilities and deferred inflows of resources by $3,557,838 in 2016 compared to $4,034,903 in 2015. On December 31, 2016, the District's assets and deferred outflows totaled $84,603,663 compared to $84,097,911 at the end of 2015. The largest portion of the District's assets reflects its investment in capital assets of $56,486,004 in 2016, compared to $56,695,130 in 2015. The total value of land, buildings, infrastructure improvements, equipment and vehicles is reported net of the total accumulated depreciation, which includes the total 2016 depreciation expense of $2,571,266 compared to depreciation expense in 2015 of $2,649,847.

It is very important to understand that the District follows the IRS recommended useful lives for depreciation calculations; however the District in all of its practices continues to utilize our buildings, machinery and equipment far past those estimated lives. By using the shorter life for depreciation this in effect causes the District's assets to basically be extensively undervalued. In the past few years even though our operations have far exceeded budget, the overall net position of the District has decreased slightly due to the large amounts of depreciation we must book. As a simple example our facilities depreciated for less than 40 years far out live that time frame; our District vehicles which are depreciated over just five years are almost always utilized for more than twice that time period.

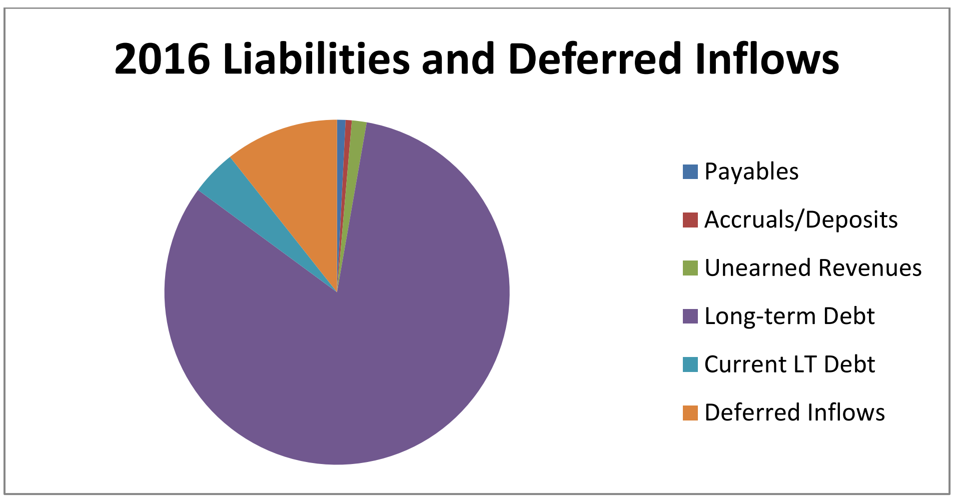
The District's 2016 year end property tax receivables of $8,636,609 include the deferred property tax receivable of $8,630,000 which is for the levy year 2016, which will be collected in fiscal year 2017. The District's year-end receivables in 2016 totaled $9,702,058 compared to $8,757,309 in 2015. At year-end 2016, the District had total cash and investments on hand of $16,272,425 compared to $16,303,421 in 2015 for a decrease of $30,996 in cash balances.

In 2012, GASB 63 renamed certain reporting components. One was the use of the term of "Net Position" instead of "Net Assets" which reflects title only. Another component was the addition of "Deferred Outflows of Resources" which in our case only represent the amounts paid for our pension obligations attributable to future years. As previously discussed this amount is reported one year in arrears due to the availability of this information reported from IMRF.



Liabilities and Deferred Inflows of Resources

The largest component of the District's liabilities is represented by the total amount of long-term debt issued and outstanding by the District. At year end 2016 this totaled $70,180,576 (including current year bond payable amounts due within one-year of $3,448,010). This compares to $69,610,874 in 2015 (plus $3,303,907 of amounts due within one-year). In 2012, GASB 63 also added "Deferred Inflows of Resources" which in our case represents the amount of taxes yet to be collected for use in the subsequent year. This had simply been part of the "Deferred Revenue" in past years. The District ended 2016 with total liabilities of $72,415,825 compared to $72,392,770 in 2015. Deferred Inflows of Resources for 2016 totaled $8,630,000 as compared to 2015 of $8,475,000. This small increase is due to the increase in the District's property tax levy.



Statement of Activities

The statement of activities shows the overall expenses and operating revenues for services the District provides on a stand-alone basis from items directly related to the recreation mission of the District. Non-operating revenues for the District which include taxes, investment income and miscellaneous items are shown separately to show how the District operates on a stand-alone basis. The supplemental items (mainly tax dollars) are what allow the District to actually operate and provide many of our non-fee mission based services such as parks. Adding these funding items back in shows the total increase or decrease from just operations**.** This amount is added to the net position at the beginning of the year to provide the net position at the end of the year. A decrease in net position does not necessarily mean poor performance, as planned usage of cash on hand or fund reserves will also be reflected here as well as the depreciation of capital assets as mentioned earlier.

All of the District's operations are considered to be governmental activities, which are operations of the District primarily supported by tax revenues. Though the Bridges of Poplar Creek Country Club (hereinafter BPC); the Prairie Stone Sports and Wellness Center (hereinafter PSSWC); and the Triphahn Center Ice Arena (hereinafter (TC), a department of the Recreation Fund; operate in a business-type fashion, these funds have numerous aspects that support the overall recreational component and mission of our District and have an accounting type of a special revenue fund; therefore they are treated for accounting purposes as governmental activities.

The following chart compares the statement of activities from year-to-year for the District:

Statement of Activities

	December 31, 2016	December 31, 2015
Revenues		
Program Revenues		
Charges for Services	$ 10,771,859	$ 10,451,392
Operating Grants	7,388	19,244
Capital Grants	160,293	167,939
General Revenues		
Taxes	9,134,734	9,090,915
Investment Income	216,037	105,021
Other Revenues	8,932	80,775
Total Revenues	20,299,243	19,915,286
Expenses		
General Government		
Parks and Recreation	17,556,853	15,229,095
Interest	3,219,455	3,185,335
Total Expenses	20,776,308	18,414,430
Change in Net Position	(477,065)	1,500,856
Beginning Net Position (Adj)	4,034,903	2,534,047
Ending Net Position	$ 3,557,838	4,034,903

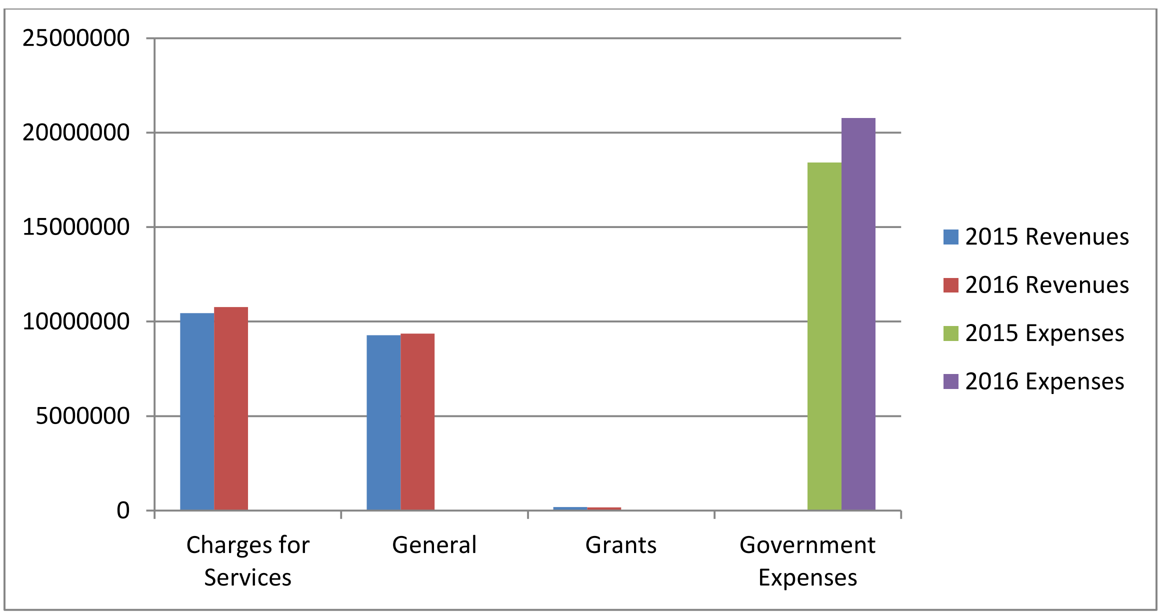
The government-wide operations are reflected in the Statement of Activities, which reports the overall expenses and revenues for the District. The major component of the District's revenues is charges for services. The specialized funds for BPC and PSSWC are similar business-type activities; however, due to the overall recreational nature of their programs and facilities for the community, they are reported as governmental activities. The 2016 governmental activities' charges for services totaled $10,771,859 compared to the 2015 amount of $10,451,392. This is very much in-line from year-to-year.

A total of $167,681 was received in 2016 for grants and contributions, which was a decrease from the 2015 amount of $187,183. General revenues of tax dollars, investment earnings and miscellaneous revenues totaled $9,359,703 in 2016, which was in-line with the 2015 total of $9,276,711.

In 2016 governmental activities of the District had $20,776,308 in expenses, which is an increase of $2,361,878 from the $18,414,330 in expenses in 2015. In 2016, this amount is comprised of $17,556,853 for general expenses (including depreciation expense of $2,456,316) and debt interest expense of $3,219,455. This compares to 2015 amounts of $15,229,095 for general expenses (including depreciation expense of $2,255,689), and debt interest expense of $3,185,335. A large portion for the reported increase in expenses for this format includes the change in accounting principle to report the IMRF deferred outflows based on a one year delay as previously mentioned.

Based on the Governmental Activities reporting, the District's total expenses exceeded revenues in 2016 by $477,065. (This amount was after a change in accounting principle to record the net pension liability with a measurement date of 12/31/15 from IMRF as the 2016 information was not yet available). In 2015, the District reported an increase in net position of $84,195. This is restated in the table on the prior page to be a positive $1,500,856 when using a measurement date in the prior year of 12/31/14. The main reason for the increase is the additional IMRF payment made of $1,091,355 in 2015. The overall net surplus is even after the amount attributable to the non-cash impact of the depreciation expense. There are a wide variety of factors impacting the differences in reporting, which are reported on the reconciliation schedule. Again, this type of framework treats certain types of issues differently; especially long term debt and capital assets. Strictly speaking it does give a snapshot of the overall activities for the year. However as we operate year to year, we have many areas where we plan on spending cash on hand, which by itself would have this number potentially appear as a negative. The fact that we are recording almost $2.7 million dollars in depreciation and still managed to report revenues above expenses is a testament to the financial excellence in the District operations.

The following graph compares the District's Statement of Activities from year-to-year:



<u>Fund Financial Statements</u>

The fund financial statements provide reporting for the District's operation at a fund level. A fund is a group of related accounts established for a specific purpose to maintain the control of resources for that purpose. The District utilizes fund accounting that reports operations categorized by each of their purposes. Certain fund's operations are tax supported and others, such as BPC, PSSWC, the Ice Arena Department, and the Capital Projects Fund are not, though they are still reported as government type activities. Infrastructure components of these funds which were funded by bond issues, may receive support in relation to the retirement of long term debt associated with the facility itself due to the overall

District wide usage of that facility as a recreational environment benefiting the community. There are three types of funds: governmental, proprietary and fiduciary. All of the District's funds are considered to be governmental.

The governmental activities are categorized into different operating funds or special revenue funds which include major and non-major funds.

The District's major funds include:

1. The General Fund which supports the overall administrative (including information technologies and human resources) and maintenance operations for the District, additionally amounts for insurance and audit expenses are provided for here. Many park districts levy for this type of area as an individual tax levy, however these expenses are paid from the General Fund and therefore not levied separately.
2. The Recreation Fund which supports all general recreation programs for the District and also contains the Communications and Marketing Department, the Willow Recreation Center, the Triphahn Center and Ice Arena, and the Seascape Aquatic Center.
3. The Bridges of Poplar Creek (BPC) Fund which reports the operations of the golf course.
4. The Prairie Stone Sports and Wellness (PSSWC) Fund which reports the operations of the Prairie Stone fitness and recreation center.
5. The Capital Development Fund which provides funding for the District's Capital Asset and Replacement Plan (CIRP).
6. The Debt Service Fund which provides the funding for the majority of the debt (bond and debt certificates) of the District

Non major funds for the District include:

1. The Illinois Municipal Retirement Fund (IMRF) which supports the employer's share of employee's retirement system
2. The Social Security Fund which provides the funding for the employer's share of Social Security and Medicare taxes.
3. The Special Recreation Fund which supports the special recreation and Americans with Disability Act programs and initiatives for the District.

The funds that currently receive tax support (General, Recreation, IMRF, Debt Service, Special Recreation and Social Security) do this through the annual tax levy. This levy is imposed on all real estate of the district and is limited by law. The limit is based on the overall maximum allowable levy that the District may impose in each fund combined. Prior to 2005 each fund could only levy its own maximum rate. However, those rates are now combined to create an overall maximum rate for the District. The amount of money that this generates for the District can annually increase by the lesser of the preceding year's (levy year) CPI or 5%. The 2016 CPI was .007%. This is the factor that is used for additional taxes which will be collected in 2017. This means that except for new growth, which is added to the overall property, equalized assessed value (EAV) that is taxed, the District's property tax revenue can only increase by less than one percent for the 2016 Levy.

The District's total EAV for the 2016 Levy (collected in 2017) was $1,408,437,259 which was an increase of $145,862,028 from the prior year's EAV of $1,262,575,231. This totaled a 11.5% increase.

Of the previously mentioned tax supported funds, only the Special Recreation Fund and the Debt Service Fund are excluded from the limiting calculation. Prior to 2010 the Debt Service Fund was also excluded from receiving the CPI increase and moreover was limited based on a dollar amount of $2,735,000 which is the same debt service levy used in 1994. The same law that imposed the limiting calculation also imposed the dollar limitation on the debt levy. This law however was changed, and the District now receives the CPI growth on it as well. The Special Recreation Fund is limited by a levy amount of $.04 times EAV. When EAV increases the amount of taxes received in this fund can increase. This will be the case for the 2017 levy.

The focus of governmental fund financial statements is narrower than that of the District-wide financial statements. The fund financial statements provide a more detailed look at the different operating components that comprise the government-wide financial statements. The focus at the fund level is more on current operations and short-term results, whereas the government-wide reporting allows for a greater understanding of the long-term sustainability of the District. It is useful to compare the two types of statements for the statement of net position and the statement of revenues, expenditures and changes in fund balance to see how current operations reflect upon the long-range value of the District. Reconciliations between the governmental funds and the activities are provided on pages 8 & 11.

By analyzing and comparing fund financial statements from year to year, management of the District is better equipped to examine the trends that are impacting the financial operations of the District. This year to year comparison provides for a better ability to plan for future years and the financial sustainability and proper reserves that should be made to provide for positive operating results. Additionally, notes to the financial statements provide additional information that is needed to gain a full understanding of the District's financial operations and the reporting on it.

In 2011, the District finalized its formal procedure for fund balance reserves. Each fund will try and maintain an assigned amount of its unreserved balance for cash flow purposes. This is not as important in the special revenue funds where all available funds are restricted. However, in the General fund an assigned balance of 40% of the annual expenses will be assigned for reserve purposes. In the Recreation, BPC, and PSSWC funds this amount will be 25%. Certain funds may require additional separate reserves, for example, one for operations, one for CIRP, and one for debt service contributions in addition to regular operations requiring potential cash flow reserves. Staff will continue to analyze benchmark levels for operating fund reserves and work to ensure that operations can fund the reserves as well as unreserved fund balances. The District reserves assigned portions of our fund balances for the purposes of cash reserves. The CAMP for the District also utilizes some fund balances for certain identified major capital improvements.

Required financial statement supplementary information provides greater detail on the District's financial operations for all of its major governmental funds, as well as the schedule of funding progress for IMRF, which for 2015 (as reported for the 2016 audit) was 95.57% as a percentage funded of the total pension liability. The District had an unfunded pension liability of $885,310 at year end 2015. The restated beginning balance for 2015 for our pension liability was determined to be $80,548. This increase in pension liability was even after the District made an additional contribution to IMRF of $1,091,355. This increase in pension liability is due to under achievement of the actuarial determined interest rate for growth on IMRF investments. The 2015 IMRF employer contribution rate was 9.39%, a decrease from the 2014 contribution rate of 9.72%. The 2016 rate was 9.28%, a slight decrease. The 2017 rate, due primarily to our extra payment, is now being projected at 8.07%.

Beginning in 2011 a second tier was added to all new employees that began enrollment in IMRF starting on or after January 1, 2011. This second tier comprises certain reduced pension benefits than the grandfathered first tier employees. There have been many discussions throughout the state of Illinois for the state to reduce state funded pensions. It should be remembered that though IMRF is a state pension system it is funded by the participants and their employers and not by the state directly.

The financial analysis of the operations by fund allows for a greater understanding of the overall District operations. The District adheres to fund accounting to ensure and comply with all finance related legal requirements for park districts. The four major operational funds of the District, which represent over 90% of the total revenues (excluding Debt Service and Capital), are General, Recreation, BPC, and PSSWC funds.

The fund financial statements exclude depreciation expense, which is also not a budgeted item. In 2016 all of the separate funds paid for their own share of FICA and IMRF charges which were then reimbursed to them by transfers from those funds where the taxes were levied. These transfers will not be paid back. The audit reflects these inter-fund transfers between funds for FICA and IMRF (and Debt Service transfers where applicable) as a reduction of expenditures. The District reflects these as either revenues or expenses within these funds (see note 8 on page 28 for detail of the transactions reported as transfers). Additional interfund transfers are made to cover administrative and maintenance expenses to the General Fund and communication and marketing expenses to the Recreation Fund, as well as transfers to our operating funds for the portion of the Special Recreation Fund tax levy to be utilized for rental payments for our facilities for special recreation related activities and programs.

The General Fund

In 2016, the General Fund's revenues totaled $3,444,228 compared to the budget of $3,279,996 with a surplus for operations of $164,232. The General Fund's expenditures were budgeted at $3,079,996 and were actuality $276,114 better than budget totaling $2,803,882. This totaled an overall excess of revenues over expenditures of $640,346. Additionally the total financing sources and uses were budgeted at ($85,000) and performed better than budget by $26,580 totaling ($58,420) due to excess sales of capital assets. The General Fund operated better than budget generating a net change in fund balance of $581,926 compared to a budget of $115,000. The net surplus was due to additional revenues for TIF (Tax Increment Financing) distributions and taxes combined this exceeded budget by approximately $74,000. There was also excess investment income of almost $73,000. Additionally the Maintenance Department and Administration Department performed $275,000 better than budget, primarily due to savings in payroll costs.

Actual 2016 revenues totaled $3,444,228 which was an increase of $175,606 over 2015 revenues of $3,268,622. This increase is due to revenues for advertising which totaled $218,864 in 2016 as well as an increase in investment income year-to-year of over $50,000. Actual 2016 expenditures and other financing uses totaled $2,862,302 which was a decrease of $146,006 over 2015 amounts totaling $3,008,308. The decrease was due to the 2015 transfer out to supplement an additional IMRF payment.

The 2016 net increase of $581,926 to the General Fund's balance was $322,189 more than the surplus in 2015 due to the aforementioned item. This resulted in a year end fund balance of $3,806,423 of which $13,436 is nonspendable for prepaid expenses, $1,980,544 is assigned for cash reserves and $1,812,443 is unassigned.

The Recreation Fund

The 2016 revenues of $6,434,254 were higher than the 2015 revenues of $6,253,826 by $180,428. The major factor was an increase in Early Childhood of $178,038 and an increase in travel soccer revenues of $131,697. There was a decrease in ice center revenues of $95,912. 2016 expenditures and other financing uses totaled of $6,083,291 which was an increase of $189,531 over 2015 expenditures and other financing uses of $5,893,760. This increase was due to the travel soccer program which added $122,893 in expenses. Additionally, Administration expenses for payroll increased by $50,000 and early childhood expenses increased by $34,070 and general program expenses increased by $37,349. There was a decrease in ice center expenses of $146,940. Total 2016 transfer outs were $787,500 to debt service to cover the ice arena portion of the bond issuance to build the facility. This payment had increased from the 2015 amount of $750,000 for the same purpose.

The Recreation Fund in 2016 ended with an increase to the fund balance of $350,963 which was similar to the 2015 surplus of $360,066. The 2016 year end fund balance increased by to $2,929,687. Of this amount, $7,753 is nonspendable for prepaid items, $1,995,360 is assigned for cash reserves, and $926,574 is assigned for the recreation fund.

Bridges of Poplar Creek Country Club (BPC)

BPC is a championship 18 hole golf course and learning center. It also has an extensive food and beverage operation utilizing the clubhouse banquet facilities and restaurant.

The 2016 revenues of $2,436,475 were $179,011 higher than the 2015 revenues of $2,257,464. This increase was due to an increase in golf operations revenues of $75,995 and an increase in food and beverage operations of $93,067. The 2016 expenditures of $2,369,161 were $46,105 higher than 2015 expenditures of $2,323,056. This increase was mainly due to additional administrative costs that increased by $37,269 and capital outlay that increased by $17,246.

The final net change in fund balance was a surplus of $67,314 compared to a deficit of $65,592 in 2015. This resulted in a year-end fund balance for 2016 of $168,856. This amount breaks down into $48,418 that is non-spendable for prepaid items, $74,377 that is nonspendable for inventory, and $46,061 that is assigned for cash reserves.

Prairie Stone Sports & Wellness Center (PSSWC)

The majority of the revenues for this facility are generated from the operation of the health and wellness center located within the facility; additionally the District's only indoor activity pool and lap pool as well as a multi gym basketball and volleyball courts offer programs for residents as well as members.

The 2016 revenues of $2,691,778 were $97,741 less than the 2015 revenues of $2,798,519. This decrease was due to $68,656 less in memberships and $51,323 less in aquatics but was offset by additional investment income of $13,134. During 2016 the aquatic area of the facility was closed causing this drop in revenues. The 2016 expenditures of $2,126,438 were $40,605 less than the 2015 expenditures of $2,167,043. This small decrease was attributable to expense savings for utilities, advertising, and contractual services. Total 2016 transfer outs were $577,500 to debt service to cover the portion of the bond issuance to build the facility. This payment had increased from the 2015 amount of $550,000 for the same purpose.

The 2016 deficit to the PSSWC's fund balance totaled $12,160, compared to a surplus of $38,148 in 2015. This resulted in a year-end fund balance of $1,027,806. Of this amount, $12,223 is nonspendable due to prepaid items; $921,421 is assigned for cash reserves; and $74,162 is unassigned.

Non-major Funds

The District's nonmajor funds are IMRF, Special Recreation, and Social Security (in 2015 the District abolished the Working Cash Fund and transferred all equities from that fund to the General Fund.)

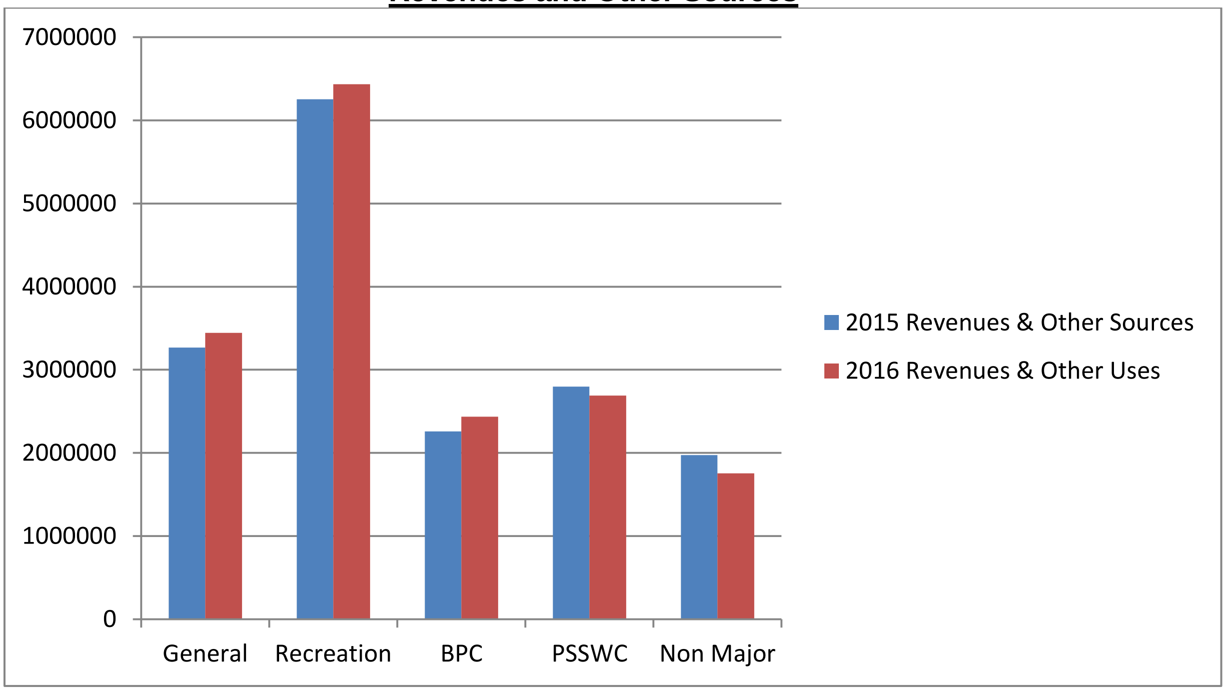
Total revenues in 2016 for these funds were $1,698,332, in line with 2015 revenues of $1,655,237. Total 2016 expenditures were $1,501,359 compared to 2015 expenditures of $2,783,794. The decrease of $1,282,435 is due to the additional IMRF payment made of $1,091,355 in 2015 and an additional

$195,285 spent on capital outlay for ADA improvements in 2015. In 2016 total other financing sources was $100,000 for a transfer in from the General Fund to help pay for ADA improvements. In 2015 this same transfer totaled $275,000. Additionally there was a transfer in from the General Fund in 2015 of $1,091,355 to fund the additional IMRF payment. In 2016 these funds had a combined surplus of $296,973 compared to a 2015 deficit of $840,800. This difference of was again primarily due to the additional IMRF payment and additional ADA capital outlay made in 2015.

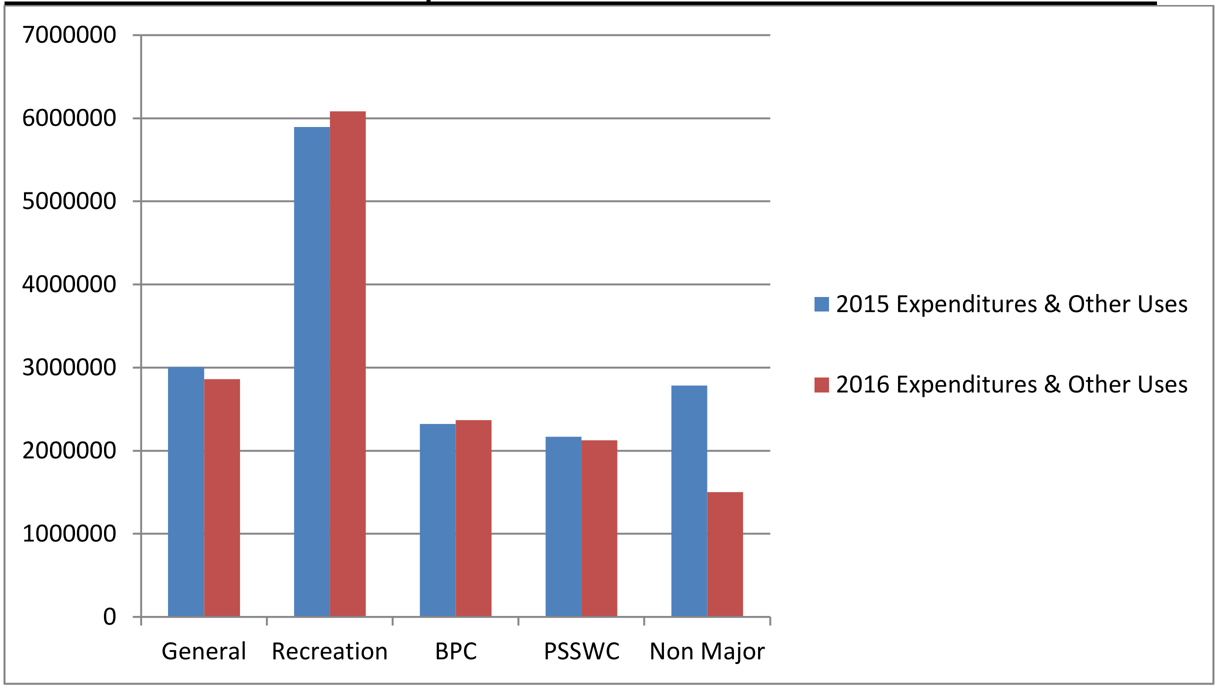
The ending combined fund balances for these funds totaled $1,200,263 compared to the total fund balances in 2015 of $903,290. The restricted fund balances for each fund were: IMRF $492,953 (increased from 2015 balance of $338,096); Social Security $406,867 (increased from 2015 balance of $312,801; and Special Recreation $300,443 (increased form 2015 balance of $252,393).

The following charts graphically represent the overall revenues and other sources (transfer ins) comparing 2016 to 2015, and the actual expenditures and other uses (transfers outs) comparing 2016 to 2015:

Revenues and Other Sources



Expenditures & Other Uses



The Capital Fund

In 2016, the Capital Fund received $1,055,581 in revenues and other financing sources compared to 2015 amounts of $1,256,084. The difference of $200,503 is due to an additional $71,449 in bond proceeds and $125,728 in miscellaneous income received in 2015. The miscellaneous income was from advertising which is now reported in the General Fund.

The Capital Fund's expenditures for 2016 were $2,283,083 compared to 2015 expenditures of $1,535,478. This increase of $747,605 was due to additional capital projects that were done in 2016. The ending 2016 fund balance was $2,047,943 compared to $3,257,445 in 2015. All of the fund balance is restricted for future capital projects.

During 2016, in addition to replacing and purchasing equipment and machinery for a combined total of $95,445, the District completed the following major additions to capital assets (exclusive of ADA components charged to the Special Recreation Fund):

- PSSWC Aquatic Renovation Project, cost $777,527
- Replaced the District's accounting software, cost $136,683
- Acquired GIS mapping software for District's capital assets, cost $83,884
- Replaced ice shell and condenser for ice arena, cost $348,016
- Replacement of Canterbury Park playground, cost $53,266
- Replacement of Sheffield Park playground, cost $62,903
- Replacement of Victoria Park playground, cost $78,136
- Purchase of Bergmann Property, cost $300,000
- TC Renovation Project, coat $113,635

In 2016, the capital assets of the District were also reduced by the disposal of surplus machinery and equipment with an original cost of $117,150 (accumulated depreciation of $114,920). For 2016, the above additions and other capital increases totaled $2,064,360, there was also depreciation expense of $2,571,266, this resulted in a year end capital asset ending balance of $56,486,004 which is a total net decrease of $209,126 to the ending 2015 balance of $56,695,130.

Additional detail for 2016 capital asset activity for the District may be found in Note 5 on Page 21.

Debt Service

In 2016 revenues totaled $3,577,146 compared to 2015 revenues of $3,543,613, which was very much in line. In 2016 transfers in was $1,365,000 which was comparable to the transfers in from the same sources in 2015 of $1,300,000. In 2016 bond proceeds of $1,871,449 were received. In 2015 the bond proceeds totaled $1,680,000. In 2016 expenditures for debt service retirement totaled $6,386,150 and in 2015 the retirements totaled $6,145,722 with the difference primarily due to an additional principal retirement amount of $245,000 in 2016. The surplus in 2016 totaled $427,445 compared to a surplus in 2015 of $377,891 which was very similar. The ending fund balance in 2016, all of which is restricted for debt service, was $4,354,943 compared to $3,927,498 in 2015.

At the end of 2016, the District had outstanding total long-term bonded debt of $68,135,000 compared to $68,310,000 at the end of 2014. This represents the General Obligation bonds of the District comprised of $60,720,000 Alternate Revenue Bonds and $7,590,000 in Limited Bonds. The limited bonds are measured against our statutory debt limit of 2.875% of our 2015 EAV ($1,408,437,259) to determine the legal amount of non-alternative revenue source debt we may have. This total is $40,492,571; that leaves a remaining available legal debt margin for general obligation limited bonds of $32,902,571. Alternate Revenue Source Bonds are not included in the computation of indebtedness for the purpose of the overall 2.875% of EAV debt limit calculation as long as the debt service levy for the bonds is abated annually and not extended. This abatement is done annually by the District.

In 2016 the District reviewed refunding our 2006 General Obligation Limited Bond. By refunding this bond potentially in 2017 the District hopes to achieve interest rate savings as well as a level repayment plan and available funding for the next 20 years. This will help ensure the availability of our annual capital projects funding thorough our annual roll over bond. The majority of the District annual bond repayment plans that allowed the equalized funding structure for our annual capital improvement plan call for interest payments each year. Principal payments have been at a minimum to allow this greater flexibility. Staggered principal payments begin at low amounts and continue to increase upwards over the life of the bonds.

For many years, the District has received an AA- rating on its bond issues. In 2006 this bond rating was raised to AA, based on the integrity and financial strength of the District, as well as the forward thinking financial planning the District has accomplished. This rating from Standard and Poors is an excellent criterion to use in evaluating the current economic strength of the District. In 2010 the District went through the rating process with Standard and Poor's in early and was upgraded to an AA+ rating. Despite everything that has happened with Illinois downgrades, the District has still maintained this rating since then, being reissued the AA+ rating once again in 2016. This is an excellent reflection of the District's financial strength.

Additional information on the outstanding bonds and other long-term debt of the District in 2016 may be found in Note 7 starting on Page24.

Summary and Future Considerations

The overall operations for the District performed very well in 2016. The District adhered to its budget and finished the year with surpluses in most all funds with the exception of PSSWC. Additionally we were able to maintain positive fund balances across all funds. The District approved the 2016 operating budget including utilizing cash reserves in both the Recreation Fund and the PSSWC Fund for major capital projects. All of the remaining governmental funds have a balanced or surplus budget. A copy of this budget is available for inspection at the District's administrative offices and on our website (heparks.org). In 2016 the District was able to add to our fund reserves in all of our major operating funds (except PSSWC which only had a slight deficit) and maintain all required balances and current reserves in our special revenue funds.

The District currently updates its five year CIRP plan every year as an important tool to ensure the long range planning for our capital expenditures. This document helps plan for the needed financial outside bond debt issue support the District will need as part of this plan there is a Capital Asset Management Plan. The most recent CMP may also be found on our website. In 2016 with the addition of our GIS software the District will now rely on a completely updated technologically sound practice for evaluating and planning for future capital replacements. The GIS software contains a complete inventory of all District assets over $5,000 and produces reports that schedules their replacements based on the useful life of each asset.

Even after utilizing the Working Cash Fund, the District has over $9 million in operating reserve balances to ensure that any negative short-term economic impact will not force the District to utilize short-term debt. Additionally we have approximately $6.5 million in debt service and capital reserves to ensure the integrity of our long range financial plans and CIRP.

A continued emphasis in obtaining additional revenue sources in advertising, donations and sponsorship revenues is generating additional revenues for the District. The District has secured three leases for cell antennas which are providing over $75,000 in alternative revenue. The District has been working diligently on securing sponsorship and partner agreements and with the additions of the marquees signs as another valuable resource for alternative funding. The District generated over $200,000 in 2016 for this initiative. The District continues its partnership with the Chicago Wolves which provides over $200,000 per year in rental income.

The recreation programs, facilities and ice operations continue to maintain their level of performance. Many areas especially early childhood programming and day care continue to grow. Continued rental agreements and independent contractors have provided alternative revenue in the form of rentals. There have been some declines in program participation especially youth athletics as well as a decreasing membership base for our fitness facilities in 2016, but these have been offset by the more successful areas.

The tax cap limitation and the threat of a property tax freeze are always a concern. Careful planning and monitoring of reserves ensures that any unforeseen decrease in tax revenues or unfunded mandates will not force an immediate impact on the services we provide. The District is carefully monitoring the discussions of a property tax freeze as well as a minimum wage increase that have been proposed for the state of Illinois. If these were to happen the District would be potentially negatively impacted hundreds of thousands of dollars in lost revenue and additional expenses.

The District will use all means possible to ensure future funding and is closely examining options that pertain to future tax dollars once certain large tax increment financing districts come onto the tax rolls. The District’s EAV has increased nicely in 2016 (up 11.5%). This is a welcome change from the decreases in prior years. This is a very good sign that our economy may be stabilizing. Even though CPI continues at a small rate providing only .8% additional tax dollars in 2015 and even lower .7% for 2016. The good news is that the CPI will increase to 2.7% for our 2017 budget.

In 2014 we had the opportunity to annex property from Palatine Park District that will provide additional property taxes to our District. Another opportunity to acquire even more land from Palatine was finalized in 2015. The first annexation is complete and new homes at a value greater than anticipated are already occupied on the second property. This property was acquired for $300,000 and has a positive ROI based on future tax flows after just five years. These future tax dollars will help us maintain our level of service for these new future residents.

In addition to numerous other capital projects in 2016, the District completed a major renovation at PSSWC for the aquatic areas. In 2017 the District will continue to fund its CAMP but will also complete a major renovation of the Triphahn Center north side producing a completely revamped area for the 50+ Active Adults as well as an addition of a new full day care room and new administrative offices for the recreation staff. Also PSSWC will see yet another renovation, this time for the locker rooms. Both of these two major renovations in 2017 will be paid for from cash reserves.

Requests for Information

This financial report is designed to provide a general overview of the financial operations of the Hoffman Estates Park District. Questions concerning any of the information in this report or requests for additional information should be sent to:

RECONCILIATION OF FUND BALANCES OF GOVERNMENTAL FUNDS TO THE GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF NET POSITION

December 31, 2016

FUND BALANCES OF GOVERNMENTAL FUNDS	$ 15,535,921
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets used in governmental activities are not current financial resources and, therefore, are not reported in the governmental funds	56,486,004
Long-term liabilities (bonds payable) are not due and payable in the current period and, therefore, are not reported in the governmental funds	(68,135,000)
Unamortized premiums on bonds are reported as an increase of liabilities on the statement of net position	(922,256)
Accrued interest on long-term liabilities is reported as a liability on the statement of net position	(270,480)
The net pension liability for the Illinois Municipal Retirement Fund is shown as a liability on the statement of net position	(885,310)
Differences between expected and actual experiences, assumption changes and net differences between projected and actual earnings and contributions subsequent to the measurement date for the Illinois Municipal Retirement Fund are recognized as deferred outflows of resources and deferred inflows of resources on the statement of net position	
Deferred outflows of resources	1,986,969
Compensated absences payable are not due and payable in the current period and, therefore, are not reported in the governmental funds	(238,010)
NET POSITION OF GOVERNMENTAL ACTIVITIES	$ 3,557,838

HOFFMAN ESTATES PARK DISTRICT
HOFFMAN ESTATES, ILLINOIS

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE GOVERNMENTAL ACTIVITIES IN THE STATEMENT OF ACTIVITIES

For the Year Ended December 31, 2016

NET CHANGE IN FUND BALANCES - TOTAL GOVERNMENTAL FUNDS	$	484,959
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlay as expenditures; however, they are capitalized in the statement of activities		2,364,340
Some expenses in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds		
Depreciation of capital assets		(2,571,266)
The loss on disposal of capital assets is reported on the statement of activities as an increase of expense		(2,200)
The issuance of long-term debt is reported as an other financing source at the fund level but an increase in liabilities at the government-wide financial statements		
Proceeds from sale of bonds		(2,910,000)
The repayment of long-term debt is reported as an expenditure when due in governmental funds but as a reduction of principal outstanding in the statement of activities		3,085,000
The amortization of bond premiums is not recorded as an expenditure in governmental funds		79,163
The change in accrued interest payable on long-term debt is reported as an expense on the statement of activities		2,532
The change in compensated absences liability is reported as an expense on the statement of activities		(19,103)
The change in the Illinois Municipal Retirement Fund net pension liability and deferred outflows and inflows of resources is not a source or use of a financial resource		(990,490)
CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES	$	(477,065)

See accompanying notes to financial statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Hoffman Estates Park District (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to governmental units (hereinafter referred to as generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below.

a. Reporting Entity

The Hoffman Estates Park District, Hoffman Estates, Illinois was incorporated in May 1964, and is duly organized and existing under the provisions of the laws of the State of Illinois, and operates under the provisions of the Park District Code of the State of Illinois, approved July 8, 1947, and laws amendatory thereto. The District is governed by an elected Board of seven Park Commissioners. The District provides services, which include preservation of open space, recreational program activities, development and maintenance of parks and facilities and general administration. As required by GAAP, these financial statements present the District (the primary government). There are no component units that are required to be included in the District's reporting entity because of the significance of their operational or financial relationship with the District.

b. Fund Accounting

The District uses funds to report on its financial position and the changes in its financial position. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

The District's funds are classified into the following category: governmental. The District does not report any proprietary of fiduciary funds.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c. Government-Wide and Fund Financial Statements

Governmental funds are used to account for all or most of a government's general activities. Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted, committed or assigned to expenditure for specified purposes other than debt service or capital projects. Capital project funds are used to account for and report financial resources that are restricted, committed or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Debt service funds are used to account for and report financial resources that are restricted, committed or assigned to expenditure for principal and interest. The General Fund is used to account for and report all financial resources not accounted for and reported in another fund.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the District. With the exception of interfund services provided and used, the effect of material interfund activity has been eliminated from these statements. Governmental activities normally are supported by taxes, program fees and intergovernmental revenues.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment or program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. It is used to account for all financial resources of the District, except those accounted for in another fund.

The Recreation Fund, a special revenue fund, is used to account for the proceeds derived from, and the related costs incurred, in connection with the recreational activities offered by the District. Financing is provided from an annual property tax levy restricted by the state for recreation purposes and fees and charges for programs and activities assigned for recreation purposes.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c. Government-Wide and Fund Financial Statements (Continued)

The Bridges of Poplar Creek Country Club Fund, a special revenue fund, accounts for the golf course and food and beverage operations at the Bridges of Poplar Creek Country Club.

The Prairie Stone Sports and Wellness Center Fund, a special revenue fund, accounts for the proceeds derived from, and the related costs incurred, in connection with the recreational activities offered at the Prairie Stone Sports and Wellness Center. The revenues in this fund are for use with Prairie Stone activities and are assigned for this purpose.

The Debt Service Fund accounts for the accumulation of funds that are restricted or assigned for repayment of principal and interest on the District's general obligation debt where repayment is financed by an annual property tax levy or through transfers from other funds.

The Capital Projects Fund accounts for restricted financial resources to be used for the acquisition or construction of major capital facilities.

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred. Property taxes are recognized as revenues in the year for which they are levied (i.e., intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The District recognizes property taxes when they become both measurable and available in the year intended to finance. Expenditures are recorded when the related liability is incurred. Principal and interest on general long-term debt are recorded as expenditures become due.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d. Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Those revenues susceptible to accrual (within 60 days) are property taxes, interest revenue and charges for services.

The District reports deferred/unearned/unavailable revenue on its financial statements. Deferred/unearned/unavailable revenues arise when potential revenue does not meet both the measurable and available or earned criteria for recognition in the current period. Deferred/unearned/unavailable revenues also arise when resources are received by the government before it has legal claim to them as when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the government has a legal claim to the resources, the liability or deferred inflow of resources for deferred/unearned/unavailable revenue is removed from the financial statements and revenue is recognized.

e. Investments

Investments with a maturity of less than one year when purchased, non-negotiable certificates of deposit and other nonparticipating investments are stated at cost or amortized cost. Investments with a maturity greater than one year are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

f. Inventories

Inventories are valued at cost, which approximates market, using the first-in/first-out (FIFO) method. The costs of governmental fund inventories are recorded as expenditures when consumed rather than when purchased. Such amounts are offset by nonspendable fund balance.

g. Prepaid Items

Payments made to vendors for services that will benefit periods beyond the date of this report are recorded as prepaid items using the consumption method.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

h. Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g., bike trails, paths, roads, bridges and similar items) are reported in the applicable governmental column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than $5,000 and an estimated useful life in excess of one year. Such assets are reported at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Property, plant and equipment are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Land improvements	20
Construction	7-50
Machinery and equipment	5-20
Vehicles	5-20

i. Compensated Absences

Accumulated unpaid vacation and other employee benefit amounts for governmental funds are accrued in these funds as a current liability to the extent that employees have retired or terminated at year end but have not been paid. A portion of unused illness and injury (sick) leave for employees hired prior to January 1, 2013 is reimbursed upon separation. Vested or accumulated vacation and qualified illness and injury leave of governmental activities at the government-wide level is recorded as an expense and liability as the benefits accrue to employees.

j. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

k. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column of the statement of net position. Unamortized losses or gains on refundings and bond premiums and discounts, are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Issuance costs are reported as expenses.

In the fund financial statements, governmental funds recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

l. Fund Balance/Net Position

In the fund financial statements, governmental funds report nonspendable fund balance for amounts that are either not in spendable form or legally or contractually required to be maintained intact. Restrictions of fund balance are reported for amounts constrained by legal restrictions from outside parties for use for a specific purpose or externally imposed by outside entities or from enabling legislation adopted by the District. Committed fund balance is constrained by formal actions of the District's Board of Park Commissioners, which is considered the District's highest level of decision-making authority. Formal action involves ordinances approved by the Board of Park Commissioners. Assigned fund balance represents amounts constrained by the District's intent to use them for a specific purpose. The authority to assign fund balance has been delegated to the District's Deputy Director/Director of Administration and Finance through the District's fund balance policy. Any residual fund balance in the General Fund, including fund balance targets and any deficit fund balance of any other governmental fund is reported as unassigned.

The District's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. If restricted or unrestricted funds are available for spending, the restricted funds are spent first. Additionally, if different levels of unrestricted funds are available for spending the District considers committed funds to be expended first followed by assigned funds and then unassigned funds.

The District has established fund balance policies for their governmental funds. It is the policy of the District that every effort be made to maintain a fund balance reserve of 40% of the estimated annual operating expenditures of the General Fund and 25% in all other funds.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

l. Fund Balance/Net Position (Continued)

The various special revenue funds supported by property taxes are restricted due to the restricted revenue streams of the fund balance. Other funds are restricted due to the nature of the contributions to the fund.

In the government-wide financial statements, restricted net position is legally restricted by outside parties for a specific purpose. Net invested in capital assets represents the book value of capital assets less any outstanding long-term debt issued to acquire or construct the capital assets.

m. Interfund Transactions

Interfund transactions are accounted for as revenues, expenditures or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund and as reductions of expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except reimbursements, are reported as transfers.

n. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available or are earned.

2. DEPOSITS AND INVESTMENTS

The District categorizes the fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

2. DEPOSITS AND INVESTMENTS (Continued)

Permitted Deposits and Investments - Illinois Compiled Statutes (ILCS) and the District's investment policy authorize the District to invest in obligations issued by the United States Government, investments constituting direct obligations of any bank, short-term obligations (commercial paper) of corporations organized in the United States of America with assets exceeding $500 million, short-term obligations issued by the Federal National Mortgage Association, shares or other securities issued by savings and loan associations, share accounts of credit unions chartered under the laws of the United States of America or the laws of the State of Illinois with principal offices located in Illinois, securities issued by Illinois Funds, Illinois Park District Liquid Asset Fund (IPDLAF) and other securities as allowed by the Illinois Public Funds Investment Act.

In addition, the Board of Park Commissioners of the District has adopted an investment policy which provides further restrictions on the investment of district funds. It is the policy of the District to invest its funds in a manner which will provide the highest investment return with the maximum security while meeting the daily cash flow demands of the District and conforming to all state and local statutes governing the investment of public funds, using the "prudent person" standard for managing the overall portfolio. The primary objectives of the policy, in order of priority are: legality, safety (preservation of capital and protection of investment principal), liquidity and yield.

a. Deposits with Financial Institutions

Custodial credit risk for deposits with financial institutions is the risk that in the event of bank failure, the District's deposits may not be returned to it. The District's investment policy requires pledging of collateral to be held in the name of the District by the District's agent with a market value of at least 110% for all bank balances in excess of federal depository insurance.

b. Investments

As of December 31, 2016, the District had the following investments and maturities:

		Investment Maturities (in Years)			
	Fair Value	Less than 1	1-5	6-10	More than 10
Negotiable certificates of deposit	$ 10,236,489	$ 3,004,975	$ 6,507,059	$ 724,455	$ -
TOTAL	$ 10,236,489	$ 3,004,975	$ 6,507,059	$ 724,455	$ -

The District has the following recurring fair value measurements as of December 31, 2016: the negotiable certificates of deposit are valued using quoted matrix pricing models (Level 2 inputs).

2. DEPOSITS AND INVESTMENTS (Continued)

b. Investments (Continued)

In accordance with its investment policy, the District limits its exposure to interest rate risk by structuring the portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity and by investing operating funds primarily in shorter-term securities.

In order to limit its exposure to credit risk, the risk that the issuer of a debt security will not pay its par value upon maturity, the District limits its investments to obligations that are guaranteed by the United States Government. The negotiable certificates of deposit are not rated by rating agencies.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to the investment, the District will not be able to recover the value of its investments that are in possession of an outside party. To limit its exposure, the District's investment policy requires all security transactions that are exposed to custodial credit risk to be processed on a delivery versus payment (DVP) basis with the underlying investments held in a custodial account with the trust department of an approved financial institution.

Concentration of credit risk is the risk that the District has a high percentage of its investments invested in one type of investment. The investment policy does not include any limitations on individual investment types.

3. RECEIVABLES

Property taxes for 2016 attach as an enforceable lien on January 1, 2016 on property values assessed as of the same date. Taxes are levied by December of the fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by Cook County and issued on or about February 1, 2017 and July 1, 2017 and are payable in two installments, on or about March 1, 2017 and August 1, 2017. The County collects such taxes and remits them periodically. Since the 2016 levy is intended to finance the 2017 fiscal year, the levy has been recorded as a receivable and a deferred inflow of resources.

4. JOINTLY GOVERNED ORGANIZATION - NORTHWEST SPECIAL RECREATION ASSOCIATION

The District is a member of the Northwest Special Recreation Association (NWSRA), which was organized by 16 area park districts in order to provide special recreation programs to the physically and mentally handicapped within their districts and to share the expenses of such programs on a cooperative basis. Each member district's fiscal year 2016 contribution is based on its pro rata share of 75% of the assessed valuation and 25% of the gross populations. For the year ended December 31, 2016, the District contributed $304,573 to NWSRA.

4. JOINTLY GOVERNED ORGANIZATION - NORTHWEST SPECIAL RECREATION ASSOCIATION (Continued)

NWSRA's Board of Directors consists of one member from each participating district. The Board of Directors is the governing body of NWSRA and is responsible for establishing all major policies and changes therein and for approving all budgets, capital outlay, programming and master plans. The District is not financially accountable for the activities of NWSRA and, accordingly, NWSRA has not been included in the accompanying financial statements.

Complete financial statements for NWSRA can be obtained from the NWSRA administrative offices at 3000 Central Road, Rolling Meadows, Illinois.

5. CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2016 was as follows:

	Beginning Balances	Increases	Decreases	Ending Balances
GOVERNMENTAL ACTIVITIES				
Capital assets not being depreciated				
Land	$ 10,904,663	$ 300,000	$ -	$ 11,204,663
Total capital assets not being depreciated	10,904,663	300,000	-	11,204,663
Capital assets being depreciated				
Land improvements	20,175,200	111,629	-	20,286,829
Construction	54,117,213	416,442	-	54,533,655
Machinery and equipment	7,785,456	1,506,092	58,000	9,233,548
Vehicles	1,115,645	30,177	59,150	1,086,672
Total capital assets being depreciated	83,193,514	2,064,340	117,150	85,140,704
Less accumulated depreciation for				
Land improvements	12,819,620	797,502	-	13,617,122
Construction	17,444,364	1,310,246	-	18,754,610
Machinery and equipment	6,295,090	406,978	55,800	6,646,268
Vehicles	843,973	56,540	59,150	841,363
Total accumulated depreciation	37,403,047	2,571,266	114,950	39,859,363
Total capital assets being depreciated, net	45,790,467	(506,926)	2,200	45,281,341
GOVERNMENTAL ACTIVITIES CAPITAL ASSETS, NET	$ 56,695,130	$ (206,926)	$ 2,200	$ 56,486,004

Depreciation expense was charged to functions/programs of the primary government as follows:

GOVERNMENTAL ACTIVITIES	
Recreation	$ 2,571,266
TOTAL DEPRECIATION EXPENSE - GOVERNMENTAL ACTIVITIES	$ 2,571,266

6. RISK MANAGEMENT

The District is exposed to various risks related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and net income losses.

a. Park District Risk Management Agency

Since 1984, the District has been a member of the Park District Risk Management Agency (PDRMA) Property/Casualty Program, a public entity risk pool consisting of park districts, forest preserve districts, special recreation associations, and certain nonprofit organizations serving the needs of public entities formed in accordance with the terms of an intergovernmental cooperative agreement among its members.

Losses exceeding the per-occurrence self-insured and reinsurance limit would be the responsibility of the District.

As a member of PDRMA's Property/Casualty Program, the District is represented on the Property/Casualty Program Council and the Membership Assembly and is entitled to one vote on each. The relationship between the District and PDRMA is governed by a contract and by-laws that have been adopted by resolution of the District's governing body. The District is contractually obligated to make all annual and supplementary contributions to PDRMA, to report claims on a timely basis, cooperate with PDRMA, its claims administrator and attorneys in claims investigation and settlement, and to follow risk management procedures as outlined by PDRMA.

The District does not exercise any control over the activities of PDRMA beyond its representation on the Board of Directors.

Members have a contractual obligation to fund any deficit of PDRMA attributable to a membership year during which they were a member. The District is not aware of any supplemental assessments owed to PDRMA for the past claim year.

The District's payments to PDRMA are displayed on the financial statements as expenditures in the governmental funds.

PDRMA is responsible for administering the self-insurance program and purchasing excess insurance according to the direction of the Program Council. PDRMA also provides its members with risk management services, including the defense of and settlement of claims, and establishes reasonable and necessary loss reduction and prevention procedures to be followed by the members.

6. RISK MANAGEMENT (Continued)

a. Park District Risk Management Agency (Continued)

The following represents a summary of PDRMA's Property/Casualty Program's balance sheet at December 31, 2015 (the most recent information available) and the statement of revenues and expenses for the period ending December 31, 2015. The District's portion of the overall equity of the pool is 1.848% or $752,268. The District made payments of $310,802 to PDRMA's Property/Casualty Program during the year ended December 31, 2016.

Assets	$	63,181,823
Liabilities		23,063,014
Member balances		40,708,211
Revenues		18,585,098
Expenditures		19,500,046

Since 96% of the PDRMA Property/Casualty Program's liabilities are reserves for losses and loss adjustment expenses which are based on an actuarial estimate of the ultimate losses incurred, the net position is impacted annually as more recent loss information becomes available.

Complete financial statements for the PDRMA can be obtained from the PDRMA's administration offices at 2033 Burlington Avenue, Lisle, Illinois.

b. PDRMA Health Program

Since 1990, the District has participated in the PDRMA Health Program, a health benefits pool of park districts, special recreation associations and public service organizations through which medical, vision, dental, life and prescription drug coverages are provided in excess of specified limits for the members, acting as a single insurable unit. The pool purchases excess insurance covering single claims over $250,000. The District's payments to the PDRMA Health Program are displayed on the financial statements as expenditures in the governmental funds.

Members can choose to provide any combination of coverages available to their employees, and pay premiums accordingly.

As a member of PDRMA's Health Program, the District is represented on the Health Program Council as well as the Membership Assembly and is entitled to one vote on each. The relationship between the District and the PDRMA Health Program is governed by a contract and by-laws that have been adopted by resolution of each member's governing body. Members are contractually obligated to make all monthly payments to the PDRMA Health Program and to fund any deficit of the PDRMA Health Program upon dissolution of the pool. They will share in any surplus of the pool based on a decision by the Health Program Council.

6. RISK MANAGEMENT (Continued)

b. PDRMA Health Program (Continued)

The District does not have any control over the activities of the PDRMA Health Program beyond its representation on the Board of Directors. The District is not aware of any supplemental contributions owed to PDRMA Health Program at December 31, 2016.

The following represents a summary of the PDRMA Health Program's balance sheet at December 31, 2015 (the most recent information available) and the statement of revenues and expenses for the year ended December 31, 2015. The District made payments of $748,902 to the PDRMA Health Program during the year ended December 31, 2016.

Assets	$ 17,141,280
Liabilities	5,510,343
Member balances	11,883,538
Revenues	36,926,788
Expenditures	34,071,062

A large percentage of the PDRMA Health Program's liabilities are reserves for losses and loss adjustment expenses, which are based on an actuarial estimate of the ultimate losses incurred.

Complete financial statements for the PDRMA Health Program can be obtained from the PDRMA's administration offices at 2033 Burlington Avenue, Lisle, Illinois.

7. LONG-TERM DEBT

a. General Obligation Bonds

The District issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. In addition, general obligation bonds have been issued to refund general obligation bonds. General obligation bonds are direct obligations and pledge the full faith and credit of the District. General obligation bonds currently outstanding are as follows:

Issue	Fund Debt Retired by	Balances January 1	Issuances	Retirements	Balances December 31	Current Portion
$6,300,000 General Obligation Limited Tax Park Bonds, Series 2006 due in annual installments of $250,000 to $1,225,000, plus interest of 4% to 5% through December 1, 2026.	Debt Service	$ 4,800,000	$ -	$ -	$ 4,800,000	$ -

7. LONG-TERM DEBT (Continued)

a. General Obligation Bonds (Continued)

Issue	Fund Debt Retired by	Balances January 1	Issuances	Retirements	Balances December 31	Current Portion
$6,680,000 Taxable General Obligation Park Bonds (Alternate Revenue Source), Series 2010A due in annual installments of $260,000 to $515,000, plus interest of 3.8% to 7.4% through December 1, 2040. A portion of the interest is granted back to the District through the Build America Bond program.	Debt Service	$ 6,680,000	$ -	$ -	$ 6,680,000	$ -
$1,520,000 General Obligation Park Bonds (Alternate Revenue Source), Series 2010B due in annual installments of $195,000 to $245,000, plus interest of 3.8% to 5.6% through December 1, 2022.	Debt Service	1,520,000	-	195,000	1,325,000	200,000
$20,500,000 General Obligation Park Bonds (Alternate Revenue Source), Series 2010C due in annual installments of $635,000 to $1,590,000, plus interest of 4.00% to 5.35% through December 1, 2040.	Debt Service	20,500,000	-	-	20,500,000	-

$2,910,000 General Obligation Limited Tax Park Bonds, Series 2016A due on December 1, 2017, plus interest of 1.5%.	Debt Service	-	2,910,000	-	2,910,000	2,910,000
TOTAL		$ 68,310,000	$ 2,910,000	$ 3,085,000	$ 68,135,000	$ 3,210,000

The alternate revenue bonds and the interest thereon are limited obligations of the District payable solely from the pledged revenues and pledged taxes. The pledged revenues are user fees for recreation programs, Build America Bond rebate payments and principal proceeds received by the District from time-to-time from the issuance of annual limited obligation bonds or notes to the fullest extent permitted by law, including Section 6-4 of the Park District Code and such other funds of the District as may be necessary and on hand from time-to-time and lawfully available for such payment. Pledged taxes are ad valorem property taxes upon all taxable property. This pledge will remain until all bonds are retired or mature in 2044 as disclosed above. During the year, the District paid $295,000 of principal and $3,008,250 of interest related to alternate revenue bonds and total pledged revenues were $4,833,132.

7. LONG-TERM DEBT (Continued)

b. Debt Service Requirements to Maturity

Annual debt service requirements to maturity are as follows:

Year Ending December 31,	General Obligation Bonds Principal	Interest
2017	$ 3,210,000	$ 3,282,491
2018	305,000	3,227,340

*Primarily liquidated by the General Fund and Recreation Fund.

8. INTERFUND TRANSFERS

Interfund transfers for the year ended December 31, 2016 were as follows:

	Transfers In	Transfers Out
MAJOR GOVERNMENTAL		
General		
Nonmajor Governmental	$ -	$ 100,000
Total General	-	100,000
Recreation		
Debt Service	-	787,500
Total Recreation	-	787,500
Debt Service		
Recreation	787,500	-
Prairie Stone Sports and Wellness Center	577,500	-
Total Debt Service	1,365,000	-
Prairie Stone Sports and Wellness Center		
Debt Service Fund	-	577,500
Total Capital Projects	-	577,500
NONMAJOR GOVERNMENTAL		
General	100,000	-
Total Nonmajor Governmental	100,000	-
TOTAL GOVERNMENT	$ 1,465,000	$ 1,465,000

8. INTERFUND TRANSFERS (Continued)

The purpose of the significant transfers is as follows:

- $1,365,000 was transferred to the Debt Service Fund from the Recreation and Prairie Stone Sports and Wellness Center Funds to fund debt payments. These transfers will not be repaid.

- $100,000 was transferred from the General Fund to the Special Recreation Fund to fund Americans with Disabilities Act (ADA) Projects. These transfers will not be repaid.

9. CONTINGENT LIABILITIES

a. Litigation

The District is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the District's attorney, the resolution of these matters will not have a material adverse effect on the financial condition of the District.

b. Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

10. LEASE COMMITMENTS

The District has entered into three operating leases with unrelated parties for equipment used at the Bridges of Poplar Creek Country Club. Two leases had terms of 48 months which expired in 2016. The third lease had a term of 60 months which expires in 2021. The total of equipment rent expenditures for the District was $131,409 for the year ended December 31, 2016.

The future minimum lease payment is as follows:

2017	$ 28,206
2018	28,206
2019	28,206
2020	28,206
2021	23,504
TOTAL	$ 136,328

11. RETIREMENT FUND COMMITMENTS

Illinois Municipal Retirement Fund

The District's defined benefit pension plan, the Illinois Municipal Retirement Fund (IMRF), provides retirement, disability, annual cost of living adjustments and death benefits to plan members and beneficiaries. IMRF is an agent multiple-employer pension plan that acts as a common investment and administrative agent for local governments and school districts in Illinois. The Illinois Pension Code establishes the benefit provisions of the plan that can only be amended by the Illinois General Assembly. IMRF issues a publicly available report that includes financial statements and supplementary information for the plan as a whole but not by individual employer. That report may be obtained by writing to the Illinois Municipal Retirement Fund, 2211 York Road, Suite 500, Oak Brook, Illinois 60523 or at www.imrf.org.

Plan Administration

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members.

The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required, benefits and refunds are recognized as an expense, and liability when due and payable.

Plan Membership

At December 31, 2015, IMRF membership consisted of:

Inactive employees or their beneficiaries currently receiving benefits	31
Inactive employees entitled to but not yet receiving benefits	164
Active employees	97
TOTAL	292

Benefits Provided

IMRF provides two tiers of pension benefits. Employees hired prior to January 1, 2011 are eligible for Tier 1 benefits. For Tier 1 employees, pension benefits vest after eight years of service. Participating members who retire at age 55 (reduced benefits) or after age 60 (full benefits) with eight years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for

11. RETIREMENT FUND COMMITMENTS (Continued)

Illinois Municipal Retirement Fund (Continued)

Benefits Provided (Continued)

each year of credited service up to 15 years, and 2% for each year thereafter. Employees hired on or after January 1, 2011 are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating members who retire at age 62 (reduced benefits) or after age 67 (full benefits) with ten years of credited service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1 2/3% of their final rate of earnings, for each year of credited service up to 15 years, and 2% for each year thereafter. IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute.

Contributions

Participating members are required to contribute 4.50% of their annual covered salary to IMRF. The District is required to contribute the remaining amounts necessary to fund IMRF as specified by statute. The employer contribution rate for the calendar year ended December 31, 2016 was 9.28% of covered payroll. The District also made an additional voluntary contribution of $1,091,355 during the calendar year ended December 31, 2015.

Actuarial Assumptions

The District's net pension liability was measured as of December 31, 2015 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation performed as of the same date using the following actuarial methods and assumptions.

Actuarial valuation date	December 31, 2015
Actuarial cost method	Entry-age normal
Asset valuation method	Market value of assets
Assumptions	
Price inflation	2.75%
Salary increases	3.75% to 14.50%
Investment rate of return	7.50%
Cost of living adjustments - Tier 1	3.00%
Cost of living adjustments - Tier 2	3.00% or ½ of the increase in the Consumer Price Index, whichever is less

11. RETIREMENT FUND COMMITMENTS (Continued)

Illinois Municipal Retirement Fund (Continued)

Actuarial Assumptions (Continued)

For nondisabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustments that were applied for nondisabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2014 (base year 2014). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

Discount Rate

The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that the District contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

Changes in the Net Pension Liability

	(a) Total Pension Liability	(b) Plan Fiduciary Net Position	(a) - (b) Net Pension Liability
BALANCES AT JANUARY 1, 2015	$ 18,381,083	$ 18,300,535	$ 80,548
Changes for the period

11. RETIREMENT FUND COMMITMENTS (Continued)

Illinois Municipal Retirement Fund (Continued)

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources

For the year ended December 31, 2016, the District recognized pension expense of $990,490.

At December 31, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to IMRF from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	$ 141,559	$ -
Assumption changes	231,876	-
Net difference between projected and actual earnings on pension plan investments	1,187,363	-
Employer contributions after the measurement date	426,171	-
TOTAL	$ 1,986,969	$ -

$426,171 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the reporting year ending December 31, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending December 31,	
2017	$ 513,536
2018	458,126
2019	328,309
2020	260,827
TOTAL	$ 1,560,798

11. RETIREMENT FUND COMMITMENTS (Continued)

Discount Rate Sensitivity

The following is a sensitivity analysis of the net pension liability to changes in the discount rate. The table below presents the net pension liability of the District calculated using the discount rate of 7.50% as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.50%) or 1 percentage point higher (8.50%) than the current rate:

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
Net pension liability (asset)	$ 3,711,736	$ 885,310	$ (1,392,667)

12. OTHER POSTEMPLOYMENT BENEFITS

The District has evaluated its potential other postemployment benefits liability. The District provides continued health insurance coverage at the active employer rate to all eligible employees in accordance with Illinois statues which creates an implicit subsidy of retiree health insurance. Former employees who choose to retain their rights to health insurance through the District are required to pay 100% of the current premium. However, no former employees have chosen to stay in the District's health insurance plan. Therefore, there has been 0% utilization and therefore no implicit subsidy to calculate in accordance with GASB Statement No. 45 *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. Additionally, the District had no former employees for which the District was providing an explicit subsidy and no current employees with agreements for future explicit subsidies upon retirement. Therefore, the District has not recorded any postemployment benefit liability as of December 31, 2016.

13. CHANGE IN ACCOUNTING PRINCIPLE

In 2015, the District adopted GASB Statement No. 68, *Accounting and Financial Reporting for Pensions, an Amendment of GASB Statement No. 27*.

The new standards required the District to recognize a net pension liability and related deferred inflows and deferred outflows of resources in its government-wide financial statements for the net pension liability associated with its pension plan.

In 2016, the District made a determination to report information from the December 31, 2015 actuarial evaluation from IMRF in order to continue its dedication to timely financial reporting. Therefore, the related accounts were restated for the prior year to reflect the net pension liability and deferred outflows and inflows of resources from December 31, 2014.

13. CHANGE IN ACCOUNTING PRINCIPLE (Continued)

The beginning net position reported in the government-wide financial statements has been restated to reflect the new guidance as follows:

	Governmental Activities
BEGINNING NET POSITION, AS PREVIOUSLY REPORTED	$ 2,618,242
Net pension liability - IMRF	804,762
Deferred outflows of resources - IMRF	(929,984)
Deferred inflows of resources - IMRF	-
Contributions subsequent to the measurement date - deferred outflows of resources	1,541,883
BEGINNING NET POSITION, AS RESTATED	$ 4,034,903

The District also implemented GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date—an amendment of GASB Statement No. 68,* in 2016 which resulted in $1,541,883 of the restatement above.

SCHEDULE OF EMPLOYER CONTRIBUTIONS
ILLINOIS MUNICIPAL RETIREMENT FUND

Last Two Fiscal Years

FISCAL YEAR ENDING DECEMBER 31,	**2015**	**2016**
Actuarially determined contribution	$ 451,146	$ 426,171
Contributions in relation to the actuarially determined contribution*	1,542,502	426,171
CONTRIBUTION DEFICIENCY (Excess)	$ (1,091,356)	$ -
Covered-employee payroll	$ 4,804,541	$ 4,592,360
Contributions as a percentage of covered-employee payroll	32.11%	9.28%

Notes to Required Supplementary Information

The information presented was determined as part of the actuarial valuation as of January 1 of the prior fiscal year. Additional information as of the latest actuarial valuation presented is as follows: the actuarial cost method was entry-age normal; the amortization method was level percentage of payroll, closed; and the amortization period was 28-year closed period until the remaining period reaches 15 years (then 15-year rolling period); the asset valuation method was five-year smoothed market with a 20.0% corridor; and the significant actuarial assumptions were wage growth at 4.0%; price inflation of 3.0%; salary increases of 4.4% to 16.0%, compounded annually; an investment rate of return at 7.5% annually; and postretirement benefit increases of 3.0% compounded annually for Tier 1 employees and postretirement benefit increases of 3.0% or 1/2 of the increase in the Consumer Price Index, whichever is less, compounded annually for Tier 2 employees.

* The District made voluntary contributions during 2015 of $1,091,355.

Ultimately, this schedule should present information for the last ten years. However, until ten years of information can be compiled, information will be presented for as many years as is available.

HOFFMAN ESTATES PARK DISTRICT
HOFFMAN ESTATES, ILLINOIS

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

December 31, 2016

LEGAL COMPLIANCE AND ACCOUNTABILITY

a. Budgets

The District's budgetary operations are governed by the appropriation law detailed in the Illinois Park District Code and administered by the Deputy Director/Director of Administration and Finance. Annually, before the end of the first quarter of each year, the District appropriates amounts necessary to defray all necessary expenditures identified in the budget, plus additional specifically identified contingent items. The appropriation law allows for transfers among categories in any fund, not to exceed an aggregate of 10% of the total amount appropriated in such fund, without additional District Board action. After the first six months of any fiscal year, the District Board may, by a two-thirds vote, amend the initially approved appropriation ordinance. Unused appropriations lapse at the end of the year.

Budgetary information for individual funds is prepared on the same basis as the basic financial statements. The budget is prepared in accordance with the Illinois Park District Code and is derived from the combined annual budget and appropriation ordinance of the District. Working budgets are prepared for all governmental fund types. All budgets are prepared based on the annual fiscal year of the District. Budgetary funds are controlled by an integrated budgetary accounting system in accordance, where applicable, with various legal requirements which govern the District.

Expenditures may not legally exceed budgeted appropriations at the fund level.

b. Excess of Actual Expenditures over Budget in Individual Funds

The following individual funds exceeded the budgets/appropriations in the following amounts:

Fund	Actual Expenditures	Final Budget/ Appropriation
Recreation	$ 5,295,791	$ 5,268,127
Bridges of Poplar Creek Country Club	2,369,161	2,317,474
Capital Projects	2,283,083	2,272,965

NONMAJOR GOVERNMENTAL FUNDS

Illinois Municipal Retirement Fund (IMRF) - To account for the activities resulting from the District's participation in IMRF. Financing is provided by a restricted annual property tax levy that produces a sufficient amount to pay the District's contributions to IMRF on behalf of the District's employees and can only be used for this purpose.

Social Security Fund - To account for the District's obligation for Social Security and Medicare taxes. Financing is provided by a restricted annual property tax levy, which produces the majority of the District's contribution and can only be used for this purpose.

Special Recreation Fund - To account for the expenditures in connection with the District's participation in the Northwest Special Recreation Association, which provides recreation programs to the handicapped and impaired. Financing is provided from a restricted annual property tax levy, the proceeds of which can only be used for this purpose.

Renovation took place at Bridges of Poplar Creek Country Club between August 19th, 2010 and June 9th, 2011, causing shortened seasons for those two years.
Door counters were installed between 2011 and 2012 at facilities to better track patrons visiting each site.
Reporting resources were increased between 2008 and 2010, enabling more accurate tracking of recreation participants.
